

THE Gleichen Call

DEC 30 1932

TWENTY-SIXTH YEAR NO. 41 GLEICHEN, ALBERTA, WEDNESDAY DECEMBER 28, 1932 SUBSCRIPTION \$2.00 PER YEAR

XMAS. EXAMINATION RESULTS GLEICHEN SCHOOLS

GRADE I
John Rodmonski, John Boyd, Geo. Varnell, Maureen Pineau, Doris Krause, Beulah Severens, Sel-don Johnston, Thomas James, Peggie Bogstie, Maurice Rishaug, Hazel Crum.

GRADE II
Betty McQueen, Agnes Boyd, Arthur Nicholas, Joan Petrie, Esther Downey, Jean Black, Gwen Clark, Donald Farquharson and Rosie Woods, Jean Dafeo, Dickie Windsor, Olga Strychar, Donald Reid, Geo. Matheson.

MISS A. Kent, Teacher.

GRADE III
Margery Gorrill, Rachel and Joan Ostrander, Wallace Smith, Ted Varnell, Leola Severens, Gwendy Mc-Kinnon, Grace Deshayes, Dorothy Bogstie, Laurie Greer, Edgar Taylor.

Not classified, absent for some exams: Lee Christianson, Ruby Dingman, Mary Guttrath, Mary Markin, Bill Markin.

GRADE IV
Herbie Guttman, Kenneth Boyd, Florence Jeffers, Marie Lumsden, Harold House, Eleanor Gooderham, Ronald Halstead, Lois Thorburn, Elliot Evans, Jack Reid, Effie Neil, Martin McBean, Gordon Wilson.

Absent for exams: Alice Krause Leonard Christianson.

MISS J. COOK, Teacher.

GRADE V
Honors: Rita Halstead, Elizabeth Gooderham, Carol Trego, Alex. Murray, Helen Kelly, Bernice Krause. Passed: Dennis Woods, Bobby Sather, Euphemia McBean, Ear. Clark, Jackie Robinson, Marion Gilbert, Margaret Dafeo, Orlo Jeffers, Florice Warner, Campbell Evans, Reta Ferguson, Irene Young, Homer Desjardine, Leslie Menard, Teddie Eglesse, Vera Matheson.

GRADE VI
Honors: Phillis Halstead, Robert Black, Bobbie Moss, Jack Hamar, Howard Warner, David Garland, Tommy Severens.

Passed: Mary Downey and Winnie Gorrill, Kippa Schmidt, Howard Ostrander, Elmer Crum, Frank Michael, Marjorie House, Gertrude Desjardine, Colin Busby, Ciel Bettis, Gordon Schnepf.

Not ranked: Lois Matheson.

MISS VANVOLKENBURG, Teacher.

GRADE VII
James Swain, Foster Ferguson, Della Hunter, Grace Anglin, John Evans, Marjorie Evans, Frank Harrison, Louise Allstot, Winnie Ferguson, Gwen Gilbert, Wilfred Rishaug, Marion Varnell, Ruby Robinson, Jean McConnell, Allen Bogstie, Johnny Guttrath.

GRADE VIII
Winnie Carrick, Maxine Allstot, Tom Downey, Clifford McLeod, Marcellous Bolinger, Hazel Boos, Billy Schmidt, Harry Harrison, Jack House, Freda MacCallum, Wilbur Murray, Marie Michael, Marie Desjardine, Wesley Desjardine, Rouche Desjardine, Brton Nicholas, Gordon Bogstie, Clarence Clifford, Marguerite Anglin, Jack Garland, Margaret Guttrath.

Standing of the High School students by grades.

GRADE IX

The first figure is for units written and the second for units passed.

A. Allstot 7, 6; J. Batta 6, 5; L. Bolinger 6, 6; R. Desjardins 6, 5; G. Ferguson 7, 6; E. Gilbert 7, 7; S. Guttman 7, 7; I. Kelly 6, 6; E. Lester 7, 7; W. Lester 7, 7; B. MacCallum 7, 3; H. McIntyre 7, 3; N. Schnepf 6, 3; V. Taylor 7, 7; H. Wilson 6, 2; P. Windsor 7, 7; M. Young 6, 5; J. Desjardins 4, 2.

Absent through illness: L. Morrow.

GRADE X

G. Anglin 6, 6; V. Anglin 6, 4; H. Bogstie 7, 6; D. Boos 7, 7; S. Carrick 6, 5; B. Duteil 7, 6; A. Evans 7, 6; E. Ferguson 8, 7; W. Ferguson 7, 4; B. Gilbert 7, 6; J. Guttman 8, 8; K. Harrison 7, 5; V. Hayes 8, 8; B. Kelly 7, 5; A. McBean 7, 7; M.

LOCAL U. F. W. A. SUCCESSFUL YEAR ELECT OFFICERS

The Gleichen U. F. W. A. have just brought to close a very interesting and successful year. At a recent meeting the officers for the ensuing year were re-elected as follows: Mrs. J. C. Buckley, president; Mrs. Lois Elder, vice-president; Mrs. H. Day, secretary-treasurer. Mrs. J. A. McArthur was elected as delegate to the annual U. F. W. A. convention to be held in Calgary in January, with Mrs. Erford as alternate.

At the last meeting, which was held at the home of Mrs. H. H. Ellis, on December 15th, arrangements were made for a dance to be held at Meadowbrook Community Hall on January 13th, 1933. A number of prizes have been donated by the members and will be given away with the lucky tickets at the dance. A beautiful hand-made quilt being the first prize and fancy work and poultry etc. as other prizes. McLean's orchestra will play for the dance and everyone is assured a good time.

J. C. HUTCHISON WELL-KNOWN FARMER DIED FRIDAY

James C. Hutchison, aged 70 years, died in Calgary, last Friday. Mr. Hutchison was born in Ormstown, Quebec. He went to Morris, Ills., at the age of 23 and resided there until 1911 when he came to Gleichen and purchased a farm four miles north and east of town. He was a member of the Percheron Society of Canada. He was also a member of the I. O. O. F. and the Knights of Pythias.

Mr. Hutchison had been in failing health for some considerable time. He is survived by his widow, a son, James W. and two daughters, Mrs. L. McNeill at home and Mrs. J. Washburn of Morris, Ills. and two brothers and sisters.

Funeral services were held in Calgary Saturday afternoon, from where the remains were forwarded to Morris, for interment.

LOCAL MASONS INSTALL OFFICERS ST. JOHN'S NIGHT

On St. John's Night, Dec. 27, the officers of the local blue lodge A. F. & A. M. were installed. There was a splendid turnout of members and visitors. Wor. Bro. A. R. Yates installed the officers and Wor. Bro. T. H. Beach presided as Toastmaster. It proved a most enjoyable evening and judging from the list of officers the fraternity is launched for another successful year.

Muriel Hamar absent through illness.

GUNNERS DEFEAT DRUMHELLER WITH SCORE 3-2

By defeating the Drumheller Miners, Friday evening in the local arena the Gunners surprised themselves as well as their supporters. Not even the most ardent fan thought that the Gunners could defeat Drumheller, although all thought that the Gunners would give them a great run.

The game opened with the Gunners trying to take the offensive. The game ranged up and down the ice mostly between the blue lines in which neither side seemed to gain any advantage, nor could the boys of either team get in close to shoot. The Gunners made the first goal when Johnston made a lone rush and shot from near the blue line. All shots on the goals were long ones. Boyes stopped three while Roberts stopped five Marquette and Johnston each got a minute penalty.

Shortly after the start of the second period the Gunners got busy and took the aggressive and shot on numerous occasions but most of them were wide. Neither goal was called upon to save a hot one. There was no score. Johnston, Maynard and Gustason each got a minute for tripping. Saves by Boyes 8, by 5.

The third spasm was the best of all from a scoring standpoint when four goals were netted, two by each side. N. Wright took a shot from the corner and made the first counter for the Miners. C. Brown got in close and tested Boyes with a real hot one. Drumheller scored again by Gustason on a pass from Badger while the Gunners had a man in the penalty box. It now looked as if the Miners had the Gunners just where they wanted them; the Gunners got up their fighting spirit and determined to score. The crowd sensing the efforts of the team began to cheer them on. The cheering helped the boys get results. Bill Taylor shot from near the blue line and scored. The crowd now rose to the occasion and howled for another goal and results came a few seconds before the final bell, when Taylor and Johnston worked through, Johnston getting the pass slammed it home. Penalties: N. Wright, C. Brown, McKay and Marquette. Shots on Drumheller five, Gleichen nine.

Al Wilson, referee.

NOTES OF THE GAME

According to the gate receipts between 500 and 600 people attended. That crowd almost equals the attendance at the playoff games last year.

By getting good teams here large crowds might attend all games providing the weather was kind.

The Miners showed a better system of play than the Gunners. It must be remembered that Friday's game was the third for the local boys this year, also the new forward pass bothers them a little.

Both teams played a clean game. The penalties that were handed out were for minor offences, such as accidentally upsetting a player inside the blue line.

The Gleichen boys backchecked like fiends. Everyone, forwards and defence worked for all they were worth all evening.

That boy Tom Johnston can work. When he gets near the enemy's net he can work quick as a flash also the very opposite when necessary.

The press stand erected by Chas. Thompson is a dandy. It is somewhat of an acrobatic feat to get into it but once there the view is superb, as nothing can obstruct the view of the players. Many thanks Mr. Thompson for the comfortable seat.

COMING EVENTS

Jan. 2—Eight annual dance of the 22nd Battery.

Jan. 13—Dance and Tombola in the Meadowbrook Hall, sponsored by the U. F. W. A.

JUNIOR RED CROSS ORGANIZE ELECT OFFICERS

(Communicated)
Recently the Junior Red Cross held a meeting in the school and elected officers for the coming year. The officers are:

Maxine Allstot, President.
Hazel Boos, Vice-president.
Marie Michael, Secretary.
Winnie Carrick, Treasurer.
Marie Desjardine, Circulation Manager.

Louise Allstot, Social Convenor.
The first meeting was held at the home of Maxine and Louise Allstot and got started at 7:30. On the roll being called it was found all members were present except two. A program committee was appointed and consist of the following: Marion Varnell, Della Hunter, and Jean McConnell.

A motion was made and carried that grade six girls be asked to become members. After discussing numerous other things the meeting was closed by singing "God Save The King," and after a light repast the members dispersed to their homes.

The members are: Marguerite Anglin, Grace Anglin, Winnie Carrick, Margaret Guttrath, Jean McConnell, Freda MacCallum, Marie Michael, Marie Desjardine, Hazel Boos, Ruby Robinson, Della Hunter, Maxine Allstot, Louise Allstot, Marion Varnell, Mary Downey, Lois Matheson, Gertrude Desjardine and Marjorie Krause.

The next meeting will be held at the home of Hazel Boos. Anyone in grades six, seven and eight wishing to join may come. Boys can become members if they wish. The fee is 25c.

ICE CARNIVAL THURSDAY NIGHT

The Gleichen Athletic Club are staging a carnival tomorrow night—Thursday—at the arena.

An elaborate program has been drawn up including some outside attractions. Mr. and Mrs. H. McHugh, Misses Mary and Margaret Simpson and Gordon Thompson will put on a series of trick and fancy skating, jumping over a string of barrels and other stunts. These events in themselves alone would be well worth seeing.

Other events will consist of 10 for hockey team and old-timers, a broomball game between Namaka and Gleichen, comedy hockey, races, etc.

MRE. M. R. LEONARD

The funeral of Mrs. M. R. Leonard, of Arrowood, who was killed Friday morning, at her home, by an explosion of coal oil, took place Saturday afternoon from the Church of the Brethren, with Rev. V. M. Gilbert conducting the services. The church was filled to capacity by the many friends of the deceased. Mrs. Leonard is survived by her husband, three children, three brothers and two sisters; Chas. of Dallas, S. D., Fred of Crescent, Iowa, Lester of Youngtown, Alta., Mrs. Nomi of Iowa and Lettie of Omaha, Neb. The funeral was in charge of G. W. Evans and interment took place in the Gleichen cemetery.

Mrs. Jas. Greer accompanied by her daughter Loraine have left for a visit with friends in Winnipeg.

Saturday there will be a moving picture matinee in the hall with special features. Special price of 10 cents for children will be the rule. At the evening performance the usual prices will prevail.

A. Simpson will likely be out of the Gunner line-up this winter. Some time ago while working with a combine he injured his leg which has not properly healed up.

The Gunners will play at Drumheller Friday. On Jan. 2nd at Medicine Hat and on Jan. 5th at Strathmore. In the meantime Manager Moss is trying to arrange games with the Maroons and Bronks of Calgary. These last two games to be played in Gleichen.

Who Owns the Farm?

by Ted Bullock in the Sherbrooke Record

President Edward Wentworth Beatty of the C.P.R. has laid his finger squarely on the weakest point in all socialistic theory. He has declared that the shareholders, that is the owners of the C.P.R., cannot and will not surrender control of their property to any tribunal.

And, of course, he is dead right. The Duff Commission scheme to force both Canadian railway systems to accept what amounts virtually to the dictation of a czar is, when you stop to consider it, just a move to confiscate private property.

It may not have been intended to be that. But that is what it is.

Socialism, the mild kind of socialism that was responsible for nationalization of hydro power in Ontario, is an anomaly.

It proclaims that all property which exists to serve the public ought never to belong to private individuals. Yet it is willing to concede to the individual ownership of that property which he uses himself.

If you will sit down quietly in a corner somewhere and try to draw the line between property which, under that theory, ought to be public and property which ought to be private, you will generate a first-class headache for yourself. And that is all you will get.

Let us assume, for purposes of argument, that I am a farmer. I own and operate two hundred acres, which I have cleared myself, seeded myself, and brought into production. I have built a barn and a house for myself, and have raised my own herd of cattle from humble beginnings.

Now suppose that some labourer who has held a job for years and has drawn his reward in cash finds himself suddenly in a hole. A depression is on. He is out of work. He cannot be allowed to starve.

He comes to me for help. If he asks for work, or for a bed and food for as long as his hard luck lasts, I'll give them to him if I can.

But if he comes along and says: "Your farm does not belong to you. It raises foodstuffs, and food belongs to the whole human race. Therefore your farm is public property, and I am going to take half of it,"—if he comes along with a song and dance like that I am quite likely to smack him on the jaw.

He has had the reward of his work in cash, and he has spent it. He had his property and he chucked it away.

My reward I have invested in land, buildings and stock. It is mine. I made it. And I'd like to see any cockeyed theorist try to talk me out of it on the plea that the crops I raise, and the produce I have to sell belong to the world.

Well, it seems to me it is the same with the C.P.R.

Just because one company is big and another is small, just because one owner is a joint stock company and the other is an individual, you cannot fairly treat the two differently.

How can a man be justified in whooping for the confiscation of the C.P.R. unless he advocates at the same time that every taxicab ought to be snatched from its owner and given over to a government bureau to be run?

Where lies the fairness in allowing the little chap to keep his property and forcing the bigger chap to give his away?

People who go in for that kind of political thinking are the type who would try to play baseball according to football rules.

I can see no logical middle road between capitalism and communism. Our whole concept of life rests on the fact that what belongs to a man is his. If we start fiddling with that concept, we must go to the other sensible position and declare that anything which belongs to anybody belongs to everybody.

Oh, I know the socialist will tell you my point of view is archaic and narrow-minded; he will say it is inhuman and cruel.

But is his any better?

If the Canadian government is allowed to tell the owners of the C.P.R. how they must run their property, what on earth is to prevent that same government from ordering me to write this column to the taste of Milford Bennett, and from dictating to farmers just what crops they shall raise each year, and where they shall sell them?

It is all kinds of fun playing with economic theories. But when you start trying to fit one of them into common sense you realize pretty quickly that there is a dark cloud to every silver lining.

NOTICE

Change in Price of Empty Bottles

On and after January 1st, 1933, undamaged pint and split bottles will be redeemable at 20 cents per dozen; and syphons at 40 cents each instead of 60 cents each.

The full purchase price of our Dry Ginger Ale and Soft Drinks will therefore be 10 cents per dozen lower, and syphons 20 cents each lower in price when purchased after January 1, 1933.

All bottles and syphons purchased up to December 31st, will be redeemed at the present prices (30 cents per dozen for splits and pints, and 60 cents each for syphons) provided they are returned to the Brewery before January 31st, 1933.

INSIST ON THE GENUINE
BUFFALO BRAND

CALGARY

DRY GINGER ALE

MANUFACTURED BY
CALGARY BREWING & MALTING CO., LTD.

The Gleichen Flour Mill

Now is a good time to get a supply of flour for next summer. Flour milled within the next two or three months will be at its best three or four months later. In the meantime you will have the bran and shorts for the horses, milk cows and pigs during the winter months when they most need this class of food.

The Gleichen Flour Mill would prefer to have its patrons pay for the grinding and take all that the wheat makes but will exchange either flour, bran or shorts for wheat at prevailing prices.

QUALIFIED WATCHMAKER JEWELLER

Prepared to repair all makes of watches and clocks and Jewellery. ALL WORK GUARANTEED SATISFACTORY, AND DONE AT REASONABLE RATES.

—USUAL PRICE—

A Norwegian whaler put in to port for supplies and disposed of the carcass of a whale 86 feet long and weighing 156 tons. The heart alone weighed three and half tons. A combination refrigerator and furnace to cool houses in summer and heat them in winter, is being developed.

For All Who Prefer Quality "SALADA" TEA

"Fresh from the Gardens"

Help Our Youth Now.

Within recent weeks daily newspapers throughout the Dominion have printed columns, and sometimes solid pages, of names of young men and women who have graduated from universities and colleges or passed the final examinations of their Normal, technical, collegiate, high school or business college courses. The total number of these young people in Canada runs away up in the thousands every year, and last year and again this year has been no exception.

In the case of the University and college graduates they have, with a few exceptions who will go on with post-graduate work, come to the end of one phase of life. The same is true of the vast majority of those who have completed Normal, technical, collegiate, high school, and business college courses. A certain number of these will go to university, or take up some special course of further training, but, generally speaking, these students have ended the days of their scholastic preparation for life.

In a word, this great army of youth, who in their teens and early twenties have been studying and undergoing training, has completed this first stage in life's journey. They have been preparing for work. They are now ready to go to work, and are eager to begin, bubbling over with enthusiasm and keyed up with energy for the work ahead, and stirred with ideas and ambitions of what they expect and desire to accomplish.

And right at the outset they are met with rebuff, with crushing disappointment. In an overwhelming majority of cases there is no work for them to do, no positions open for them to fill, no opportunities knocking at the door to which they can respond. True, there is the odd case where through family or other influence a position is made available, but, by and large, inability to secure work is the experience of this army of today's youth, trained, eager and ready to work. They find themselves in a world which offers them little or no opportunity to use their hard won knowledge and training.

Herein lies the greatest tragedy of present day conditions, herein is to be found the greatest menace not only to the future lives and usefulness of these young people, but to the future of our country. At the close of one period in their lives, they are confronted with a blank wall; they cannot retrace their steps, they cannot go forward. What are they to do except "mark time" for the present, and, while marking time, what is to be effect on their enthusiasms, their energy and initiative, their ambitions.—In a word, on their character? They must fill in the time in some fashion. During this trying period of enforced idleness, are they going to develop habits of shiftlessness, slip into evil ways, weaken morally? Is the clear, straight thinking developed in their student days to become twisted, and the strong anchorages deeply imbedded in the wisdom and experience of the past which have been instilled in them to be uprooted?

These are questions to be answered not only by present-day youth, but by the more adult generation. The elders of today have survived other depressions, other panics and crises, and they know that the evils of today will be overcome and pass away. They have confidence that there are just as good, even better days ahead; that the future holds just as great opportunities, greater in fact, than the past, and that these opportunities will come to the youth of today as they came to them. But youth, lacking the experience, is not sure of this. It has had its golden visions of immediate activity and usefulness in the world of work dimmed, if not shattered. They are hurt and bewildered. They are not at all sure of the future, and are in a questioning state of mind. They do not know where to turn. Parents and friends are absorbed in their own difficulties, worried and apt to be impatient.

The elders of this generation require to develop an understanding of their children's problems and present outlook on life, to reveal to them a deep sympathy, and to cultivate a divine patience with them. Parents can, perhaps, do more in these days to make or break the future lives of their children than was possibly the case in other years.

And what is true of the parents is likewise true of those who are the leaders of and responsible for the life and activities of the communities in which they live. Youth must be served, and if active remunerative employment for a time cannot be provided as an outlet for their energies and enthusiasms, then other provision must be made.

Students of the problem confronting youth at present suggest two forms of activity for them in the absence of other employment. One, that in each and every community adequate means and forms of recreation be provided to engage the interest of and provide an outlet for the energies of youth,—in all departments of sport, in properly supervised dances, in the organization of orchestras, glee clubs, amateur theatricals, debating societies, in libraries containing books on inventions, explorations, science, etc.

Second, in the arousing and developing of an interest among young people in the welfare of the community in which they live. If remunerative occupation cannot be provided for the youth of the community, give them the opportunity to serve themselves through some form of recreation and to serve others and the community at large until the opportunity to realize their ambitions returns. The elders of the community can develop such programmes,—there is always a need, and probably more so now than ever before,—and by the application of the enthusiasm and energy of youth they can be carried through. It will keep them out of mischief, and give them something to think about besides their own problems. Instead of becoming narrow, selfish and bitter, such an interest will broaden their outlook and such activities will sweeten their lives. They will discover much to be thankful for; that in many ways they are not so badly off after all; hope will be revived, confidence restored, new, and possibly better conditions aroused.

Out in the cattle country according to a Western paper, it is not unusual to see a \$50 saddle on a \$15 broncho. Huh! Around here we're always running into—or being run into by—\$5 cars wearing \$15 licenses.

"Look here, waiter, I've been waiting half an hour for that steak I ordered."

"Yes, sir, I know sir. Life would be worth living if everybody was as patient as you are."

Suffered A Severe Attack Of Dysentery

Mr. P. L. D. Moulard, Vernon, B.C., writes:—"Last Summer I suffered from a severe attack of dysentery. I tried nearly everything on the market, without getting any relief, until a friend told me to use Dr. Fowler's Extract of Wild Strawberry, which I did, and I got immediate relief. Now I am making it a rule to always keep a bottle of it in my medicine chest."

"Wild Strawberry is sure relief for dysentery, colic and diarrhoea, but I always see I get the genuine 'Dr. Fowler's'."

Another Scientific Success Is Announced

Tube Built By German Smashes Atoms By Millions
Success in another great atom-smashing goal of science—disintegration of masses of atoms—has been announced by the German General Electric Company.

The new accomplishment takes big power—announced as the entire output of the German plant—and converts it into atom-smashing particles. The Germans claim to have pulverized atoms by the millions instead of the few hit-and-miss smashes achieved by previous scientific methods. The importance of their development in this increase in numbers.

It will be necessary to have apparatus capable of smashing atoms in vast masses before scientists expect to fathom the secrets—and possible uses—that lie behind the atomic barriers.

Meagre reports indicate the Germans have made a long stride along this road, but have not yet reached the heights they wish, probably countless billions of smashed atoms. They describe the tube which breaks atoms by the millions "a rate at which the usual devices no longer suffice in measure the wreckage," and state that it has been dismantled so that a still larger one may be set up.

The tube was built by Fritz Lange and Arno Brush. It is a 5,000,000-volt X-ray tube, made by "cascading" that is, by hooking together end to end, several X-ray tubes.

Each unit of this cascade according to the brief announcement, is 2.40 metres long, about eight feet, but how many are hooked together is not stated. The cascading is employed to spread the tremendous electrical energy so that it does not destroy the tube containing it.

If the tube operates in the usual way, the 5,000,000-volt current produces a stream of glowing electrons such as are visible on a small scale in a radio tube. These strike a metal target and the smashing impact gives off three kinds of rays; Gamma, which are immaterial and similar to the rays of radium; Alpha particles, which are heavy units corresponding to the nucleus of a helium atom, and electrons, variously called Beta rays and Cathode rays.

The announcement says the electron rays in the big tube have a range of 20 metres, more than 30 feet, but does not make clear whether all this is in air.

The Gamma rays are said to pierce 20 centimetres of lead. This is a surprising penetration.

Testing New War Tank

Latest American Invention Can Be Shifted By Airplane

Army experts at Linden, New Jersey, continued their study of the tank invented by J. Walter Christie after additional tests in which the tank equipped with springs leaped thirty-five feet, crossing a twelve-foot-deep ditch at fifty miles an hour.

The tank attained a speed of 122 miles an hour in tests, and Mr. Christie says it can reach 130 miles an hour if forced. The top speed of the original caterpillar tanks was until recently, eight miles an hour.

Yet despite its speed and jumping ability the tank, which is equipped with three-inch guns, is so light that it can be swung underneath any airplane capable of carrying five tons and shifted from sector to sector. Airplane tests with the new tank are to be made in Dayton, Ohio, soon.

Only Key To Prosperity

There is no way to bring back prosperity quite equal to that of putting the unemployed to work. It is the real key to the situation diminishing as it does the demand upon public and private charity, increasing buying power, and restoring confidence among those who have been employed but have hesitated to buy little more than the bare necessities of life because of the feeling of uncertainty.

Canada's Pension List

Colonel J. G. Thompson, of Ottawa, chairman of the Board of Pensions Commissioners, is authority for the statement that there are 259,848 people on the pension list in Canada as a result of the war. Of the number, 74,461 are men who were disabled at the front. The cost of the pensions is nearly \$50,000,000 annually, a large sum for a country with some 10,000,000 population.

The Greek Government has ordered that after October first, all canned goods sold in the country must bear the date of packing.

Chess is played in every country on earth.

The day is lost if you pass it without having laughed at least once.

The Coming Motor Car

New Models Show Trend Toward Stream-Line Appearance

The automobiles of the future will look more and more like one another, we are told in an informative article by T. R. Elliott in MacLean's Magazine. This will not surprise the class observer of this year's models for a tendency in this direction is already apparent. However cars may differ in other respects—in materials, appointments or power—their appearance will conform to the stream-line. They will adopt, Mr. Elliott says, a shape very much like that of a teardrop rolling down the cheek. It is the shape of the raindrop, the bird and the fish. Man, having experimented, has found that nature was right, after all. The great advantage of the teardrop shape is in the saving of power. It seems that at 50 miles an hour the teardrop uses about ten horse-power as against the 20 used by the ordinary sedan. It means a saving not only in gasoline but in engine construction. Automobiles should tend to become cheaper and more economical to operate. There are other improvements along the highway that leads to the "perfect" car. One of them is suspected to be the super-balloon tire. Others have to do with materials, lubrication and engine design. The last word in automobiles has not yet been uttered. The industry has an interesting future.

WHOLE FAMILY WITH INDIGESTION

A mother of four writes:—"Myself and family of four all seemed to suffer from acidity, pains in the back, and other forms of indigestion. I suffered whatever I ate. But since we have been taking Kruschen (for the last three months) we can eat anything, and all enjoy our food much better. We never have a trace of acidity or pain now. I think it is wonderful—it has no upsetting results. Whatever we may have to go without, we could not give up Kruschen."—(Mrs.) M.K. Kruschen Salts swiftly neutralizes acid, takes all the ferment out of it, and gently expels it from the system. And by stimulating your organs of elimination to perfect regular action, Kruschen will prevent this harmful acid from ever accumulating again. After that you'll experience no more misery after meals. Kruschen will keep your inside clean and serene. Pure and invigorated blood will be sent coursing to every part of your body. You'll feel wonderfully energetic and well. As healthy and hearty as it is humanly possible to feel.

Food Prices Decline

Cost Of Food Half Of What It Was In 1921

Cost of food today over the store counter is considerably less than half what it was in 1921, and has shown a marked decline since 1929, a report issued by the Dominion Bureau of Statistics shows.

The index numbers of the Dominion Bureau of the retail prices of food 11 years ago stood at 141.1; in 1929 it was 101, slightly over the base of 100 in 1926, and in July this year it was 61.4, a drop of 39.6 points in three years.

The index number of clothing, fuel and rents has also declined, and on the whole the change in the cost of living is shown by a drop in the total index from 99.9 in 1929 to 80.8 last month.

Practically every item of food shows reductions, including meats, butter, milk, bread, sugar, coffee and tea. Vinegar is a lone standout, showing little change. It was 7.8 cents per pint in 1929. Today it is 7.5 cents.

Dragged Down By Asthma.

The man or woman who is continually subject to asthma is unfitted for his or her life's work. Strength departs and energy is taken away until life becomes a dreary existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to an army of sufferers. It relieves the restricted air tubes and guards against future trouble. Try it.

Using Canadian Ports

Canadian ports are being used by Canadian shippers to a greater extent than possibly ever before, and the routing of the Dominion's grain to the United Kingdom via the all-Canada route is increasing. Formerly, United States ports got the bulk of Canadian grain for shipment overseas, but this situation has been changed in the past year.

"The modern girl is nothing but an animated doll," declares a novelist. He must admit, however, that she doesn't call "Mamma" when she is squeezed.

Made by Janarius Gagliano, in Naples, in 1745, a violinello was sold in London recently for \$1,250.

Soft corns and warts are ugly, painful and irritating. Remove them quickly and surely with Douglas' Egyptian Liniment.

A Prime Favourite

Men who "roll their own" have made OGDEN'S fine cut cigarette tobacco a favourite—it makes better cigarettes more quickly—this brand has always sold on its merits.

Free "Chanticleer" cigarette papers with every package.

Bidding For Tourist Trade

Canada Can Draw Business By Advertising Pleasure Resorts

Tourists in Canada, 1931, spent \$297,238,000. Canadian tourists abroad spent \$113,292,000. Canada's net debt to tourists was \$165,946,000. That's a debt that's all to the good in these days of so many bad ones, and Ontario and Quebec which got the major portion of it are to be congratulated on the successful harvest of their advertising. Canada's balance in tourist trade is so much greater than her balance of trade in commodities that catering to tourists looks almost like a Wallingford scheme for the rapid accumulation of wealth.

Saskatchewan is the latest province to make a bid for the trade of travellers. Previous to the opening of the Prince Albert National Park, Saskatchewan was stricken with a poverty of playgrounds, and had only the sight of the waving seas of wheat to offer as an inducement to vacationists. However, she has boomed the name of the park by catering to two motorcades from the south, one from Montana and the other from the states as far south as Colorado adjacent to U.S. highway 85. The second party included the governors of North Dakota, South Dakota and Wyoming, and it is slated as an annual affair to arouse and maintain interest in what is termed "the international highway of three nations," with Prince Albert National Park at one end and Mexico at the other. —Edmonton Journal.

Revenue From Radio

Receipts From Radio Licenses Exceed One Million Dollars

Receipts from radio receiving licenses this fiscal year already exceed \$1,000,000. This means 500,000 owners of sets have taken out licenses. This is said to be about half of those owning sets. It had been planned to prosecute those who did not take out licenses voluntarily but it has been decided to first make a house to house canvass. Commander C. P. Edwards will have charge of organizing this Canada-wide undertaking.

Many infants are infested by worms which cause great suffering, and if not promptly dealt with may cause constitutional weaknesses difficult to remedy. Miller's Worm Powders will clear the stomach and bowels of worms and will so act upon the system that there will be no recurrence of the trouble. And not only this, but they will repair the injuries to the organs that worms cause and restore them to soundness.

Engineers of 18 countries are meeting in Milan, Italy, to confer on international uniform standards for airplane and automobile parts and other articles.

Mechanical household refrigerators are taking the place of the traditional cooling cellars in apartments in Belgium.

If you must wean baby to a bottle and you are anxious to know if he will thrive, use Eagle Brand and protect him from digestive troubles. Eagle Brand has proved safe and reliable for seventy-five years. Babies grow and thrive on it. Write for "Baby Welfare" using coupon below.

Canada Now Importing

Raisins From Australia

Supply Formerly Came From United States and Spain

"Have you had your iron today?" That is what the raisins people used to shout at us some years ago, and those of us who heeded, and thought we needed iron, promptly went out and bought raisins that came from Spain or the U.S.A.

It is different today. We've begun to mix imperialism (not the old sort) with our iron, have started to buy our raisins from South Africa and Australia. Australia, indeed, is now sending us more raisins than we get from across the line.

Under the new trade treaty importation of Australian raisins has increased from 4,099,008 pounds in the first six months of 1931 to 4,489,309 in the same period of 1932. In the half year of 1931 we imported 8,291,732 pounds from the United States, but the import has declined this year to 5,422,603.

The last three months demonstrate very clearly the efforts which Australia is making to capture our raisin trade. The amount imported from Australia has been 4,291,690 pounds as compared with 2,239,352 from the United States.

Incidentally, all of us who are preaching the need for and benefits of trade within the Empire can help along the good work by "buying British."—Ottawa Journal.

A Corrector Of Pulmonary Troubles.—Many testimonials could be presented showing the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

Mystery V.C. Holder

How Commander Agar Won Coveted Decoration Was Never Revealed

Commander Agar, who is with H.M.S. Scarborough in the West Indies, and who was gravely hurt as the result of a seaplane crash that drowned two American passengers, was known as the mystery V.C., no details having been given of the act that won him the coveted bronze cross after the Great War was well over. But when the Bolsheviks placed \$5,000 on Commander Agar's head just after their cruiser "Olig" was torpedoed off Kronstadt people put two and two together. Commander Agar made his raid on the "Olig" in a small motor-boat, ran the gauntlet of Russian, destroyers and heavy fortress guns, repaired damages to his craft while under fire, and made off with sails commandeered from a Russian fishing boat.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

Old Coin Survives Fire

Was Imbedded In Silver Of Others That Melted

A coin 1,133 years old, dated A.D. 799, has been found at Corning, Illinois, among the possessions of Jake Bittner. Mrs. Bittner's father was a coin collector, but when his home burned the coins were melted. The metal was thrown in a trunk. Dug out recently with an eye toward selling the silver metal, the mass revealed one coin imbedded in the silver. Made of copper, it had not melted.

An analyst has found iron filings in tea, chalk in custard powder, and zinc in sauce. Fired by his success, he is now bent on discovering pork in pork-and-beans.

The Amsterdam-Paris air line has installed flying telegraph offices for the use of its passengers.

Erect Higher Buildings

Permission Granted To Construct Buildings In London To Height Of 100 Feet

An upward advance in the height of buildings permitted to be constructed in London has been allowed by the County Council. Henceforth structures may rise to a height of 100 feet. The previous limit was 80 feet. Risk of fire has been the principal factor in limiting the upward extent of London's buildings, but under present methods of steel construction the risk is considerably lessened. It is doubtful, however, whether the sub-soil would bear structures of skyscraper proportions, though heights of 200 feet are anticipated.

"I wish my wife would not live beyond our means."

"Why does she do it?"

"Just to impress the neighbors who live beyond their means just to impress us."

Bilious For Days At Time Until She Took Vegetable Pills

Gratefully, Mrs. C. writes: "The first dose of your wonderful Carter's Little Liver Pills gave me great relief after every medicine I tried failed."

Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels, Dr. Carter's Little Liver Pills are without equal for correcting Constipation, Acidity, Headaches, Poor Complexion and Indigestion. 25c. & 75c. red packs everywhere. Ask for Carter's by NAME.

CANADIAN WOMEN FIND DUSTING DISTASTEFUL

Dust cloths going into discard; Unpleasant to use; a bother to wash

APPLEFORD WONDER PAPER HAS GREAT VOGUE

Of all household tasks, that of dusting is the least appealing to the majority of women.

However, this condition, like many another connected with housework, is undergoing radical change. In a great many Canadian homes the women are discarding dust cloths entirely, and are using Appleford Wonder Paper instead, because it actually dusters—as it cleans—as it polishes, doing a better and much quicker job than the old dust cloth ever did.

This new, and extremely modern Wonder Paper, is made from clean rags, and soft paper pulp, treated in a scientific way with a high-grade furniture polish; and absorbs dirt instead of spreading it.

Appleford Wonder Paper comes in handy-size packages, twenty-five large sheets for twenty-five cents. You crumple a sheet into a soft wad and go over the surfaces requiring attention. Then when one side is soiled or worn, turn the Wonder Paper inside out. After you have given a quick and lasting finish to furniture and woodwork, you can still use Wonder Paper on the floors, if you wish.

And when you are through, there's no old duster to shake out or wash. Throw the soiled Wonder Paper away and you've completed the most tiresome part of housework in half the time and with half the effort.

Wonder Paper is made by the makers of the famous PARA-SANI Heavy Waxed Paper in the Green Box.

Special Offer
Most grocery, hardware and department stores have Appleford Wonder Paper in stock. If yours hasn't, we'll be pleased to supply you from the factory. Just fill in and mail this coupon.

Appleford Paper Products, Ltd., Hamilton, Ontario.

WEIGHED AND FOUND WORTHY

You may feel perfectly assured in buying any product that is consistently advertised here in these pages of your newspaper. Such a product has been weighted . . . and found worthy. Not necessarily by us . . . but by the sternest judge of the last court of merchandising appeals—the buying public.

Advertising is merciless in its treatment of the unworthy product—it serves only to hasten its failure. No amount of advertising—no matter how skilfully done—can force a product of no merit on the public. They simply won't buy it.

It seems reasonable, doesn't it to believe that the manufacturer of any product to be offered to the public will see that it is worthy before he backs it with thousands—often millions—in advertising!

Read the advertisements here in your paper . . . they are reliable statements about reliable products.

THE GLEICHEN CALL

Town & District

Clarence Woods returned home last week after spending about a year in Saskatchewan.

Howard and Joan Ostrander, who have been staying with their grandparents, Mr. and Mrs. J. E. Strander, since September attending school here returned to the home of their parents at Broadview, Sask.

All the rooms of the public schools held Christmas entertainments, on Thursday afternoon of last week, when many parents of the children taking part attended. All report the program was thoroughly enjoyed.

Mrs. K. Lyons, of Craigmyle and her son who is attending school in Saskatchewan spent the Xmas holidays at the home of her brother, G. H. Gooderham.

It is doubtful if anybody hereabouts went without the usual turkey dinner Xmas. There was certainly no shortage of turkeys in town or country.

Owing to wheat dropping in price so much The Call in future will accept four bushels of wheat for a year's subscription to this paper. This applies to subscriptions overdue and renewals or new subscribers, but to genuine farmers only.

Rev. J. R. Davies of St. Andrews Church will preach his farewell sermon Sunday, January 1st. Mr. and Mrs. Davies have resided in Gleichen for the past four years and in that time have made many friends for themselves who regret their departure for their new parish at Acme.

Miss M. McIntyre, who is on the nursing staff of the Holy Cross hospital, Calgary, spent Xmas at the home of her parents, Dr. and Mrs. McIntyre.

Peter Downey and Hugh Beach who are attending the University at Edmonton are spending the holidays at the homes of their parents.

Miss P. Irvine, of Edmonton, is visiting at the home of her grandparents, Mr. and Mrs. J. E. Ostrander.

Mr. and Mrs. Walker, of the Home, staff, have as visitors their two little daughters, from Calgary.

A W. Miller, a well to do farmer in the Rockyford district brought in a large load of wheat to the Gleichen Mill last week and took out his winter's supply of flour. He expressed his appreciation of the treatment he received at the mill.

Miss Helen Kelly wishes to thank all her kind friends who voted for her in the recent doll contest.

Much interest was created in guessing contest staged by the Pioneer Meat Market. Bob stated many arguments ensued and some of them were good. The carcass weighted 647 pounds 2 oz. and the following were the winners: T. H. Beach who estimated the weight as being 647 pounds; Mrs. R. W. Brown 647 lbs. and 8 oz. and Mrs. Hoey 646 lbs.

Miss M. Stubbs is visiting her parents during the holiday season. She is attending school in Calgary.

O. K. Crosset got a couple splendid turkeys for his Xmas dinner. He put them where he thought they would be safe. Some bold robbers stole them so Hogan's cupboard was bare for Xmas.

The Christmas entertainment in the United Church took the form of a supper for the members of the Church School. A tree was prettily decorated and Santa Claus treated the young folk to apples, oranges and nuts. And a helping of candies formed a part of the table courses. Over one hundred plates were served and all had a most enjoyable time.

An exchange says: Newspaper men as a rule, have but two things to sell, space and subscriptions; and it would be just as consistent to ask your grocer for a dozen oranges "just to fill up," as to ask an editor for a dozen lines in his paper to boost business, or some project whereby the promoters will realize a revenue, with the idea that you are doing a kindness in helping to "fill up" space. Try getting a free dinner at the hotels or restaurants "just to fill up."
